Maximize your investment in your home with reducing your mortgage term and loan rate.

80941225

*Rates subject to change. An example of an adjusted rate and term is as follows: A 2.875% rate with a 3.313% Annual Percentage Rate (APR) for a 15-year fixed rate loan term with 1.000% points for a $100,000 loan would have an average monthly payment of $684.59. For a $100,000 15-year fixed rate mortgage at 3.125% with a 3.147% APR with 0.000% points, a monthly payment would be $696.61. Estimated monthly payments do not include taxes and insurance. Actual payment obligations may be greater. Eligibility is subject to credit approval and loan review. Other terms and conditions may apply depending on the loan terms offered or chosen.

2 years ago a journey for a new dog began .. The days weather was amazing just like today .. Two hours later into the journey, the scene was set to make a decision on finding that perfect match to bring home and love for many years to come. At the scene where an important decision was going to be made, there were three siblings playing in the sunshine .. All of a sudden there was a face and a wagging tail that would soon change some special people's lives. She was the one because when you know you definitely know .. This is the first photo from that amazing day .. The past cannot be changed even though sometimes you wish It could. The present is a present which is this bundle of unconditional love .. The future of this dogs journey can be predictable unlike anything else in our lives. They don't care about how much money you have or where you live. All they care about is loving you through the good times and the sad times. Lana's journey continues because she is here to teach a lesson to all of the people in her life. LOVE

Here, an absolutely beautiful color combination of white hardwood cabinetry, a full host of stainless steel appliances and dark-colored granite countertops provide an elegant flair while recessed lighting is expertly placed through the room. A center island allows for additional working space while a custom ceramic tiled back splash blends the décor perfectly. There is also a ceramic tiled floor, a stainless steel sink and a window that looks to the backyard. A large pantry closet is just off and a half bath with a pedestal sink serves this level.

All of the homes four bedrooms are located on the second level.

The master bedroom highlights lots of living space along with a large generously-sized walk-in closet and wall-to-wall carpeting. A doorway then opens to a ceramic tiled private bath featuring double vanities.

The home's remaining bedrooms are each wall-to-wall carpeted and have spacious closets. Windows look to the front, side or back yards and a full bath serves them. A laundry room is also on this level for convenience.

In addition, the home also features a backyard patio and deck, central air conditioning, forced air gas heat and public utilities.
