

9 PEDIATRIC PROCEDURES

The Pennsylvania Health Care Cost Containment Council looked at nine children's heart procedures. Here are the numbers at Geisinger from 2010-12. Because Geisinger data spanned three years instead of the four used for other hospitals, no mortality data was included.

Procedure	Patients
Arterial switch operation	2
Ventricular Septal Defect repair	6
Arterial switch & ventricular septal defect repair	0
Norwood procedure	5
Glenn/Hemi-Fontan procedure	4
Fontan procedure	7
Truncus repair	0
Complete atrioventricular canal repair	1
Tetralogy of Fallot repair	8
